

City of Memphis
Purchase of Equipment & Support for Network Equipment at 170 N. Main
RFQ # SAIC CoM 2015 –RG R161737
Answers to Questions

	<u>RFQ Section</u>	QUESTION	Response
1.		On page 16 does section B need to be completed if bidder is MBE Certified? And what other forms can be omitted from submittal if bidder is MBE Certified?	Yes, if there are certified firms that will be employed as subcontractors or suppliers on this procurement. All forms are required.
2.		Why do they need a 7240 controller? The 7240 can handle up to 2,048 APs and if they only have 512 then they only need the 7220.	The 7240 will also be used to replace the end-of-life controller that is currently in service.
3.		Will they be mounting on a drop tile ceiling? If not, you will need to include mounting gear.	Yes, the AP's will be mounted on a drop ceiling tile.
